Dear TAXPAYER:

This is in response to your Apr. 26, 2011, request for information regarding your tax-exempt status.

Our records indicate that you were recognized as exempt under section 501(c)(3) of the Internal Revenue Code in a determination letter issued in MAY 1988.

Our records also indicate that you are not a private foundation within the meaning of section 509(a) of the Code because you are described in section(s) 509(a)(1) and 170(b)(1)(A)(vi).

Donors may deduct contributions to you as provided in section 170 of the Code. Bequests, legacies, devises, transfers, or gifts to you or for your use are deductible for Federal estate and gift tax purposes if they meet the applicable provisions of sections 2055, 2106, and 2522 of the Code.

Please refer to our website www.irs.gov/eo for information regarding filing requirements. Specifically, section 6033(j) of the Code provides that failure to file an annual information return for three consecutive years results in revocation of tax-exempt status as of the filing due date of the third return for organizations required to file. We will publish a list of organizations whose tax-exempt status was revoked under section 6033(j) of the Code on our website beginning in early 2011.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Mother's Refuge

I have audited the accompanying financial statements of Mother's Refuge (a nonprofit organization), which comprise the statement of financial position as of September 30, 2014 and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mother's Refuge as of September 30, 2014, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Mother's Refuge
Notes to Financial Statements
September 30, 2014

Note A - Summary of Significant Accounting Policies

Organization

Mother's Refuge (the Organization), which is located in Independence, Missouri, was formed in 1987. The Organization's mission is to shelter and educate homeless pregnant and parenting young women by providing comprehensive services that empower them to make successful life decisions for themselves and their babies. The Program is primarily funded through grants from private foundations and government agencies, as well as donations from individuals and organizations.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence or nature of any donor imposed restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Contributions whose restrictions are met in the same reporting period are shown as unrestricted contributions.

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Organization considers cash on hand and cash in operating bank accounts to be cash and cash equivalents, unless the cash has been designated or restricted for long-term purposes.

Grants/Contracts Receivable and the Allowance for Doubtful Accounts

Grants and Contracts receivable that are expected to be collected within one year are recorded at their net realizable value.

Beneficial Interest in Assets Held by Community Foundation

Beneficial interest in assets held by Community Foundation is stated at the value provided to the Organization by the Truman Heartland Community Foundation.

Property and Equipment

Property and equipment are carried at cost. Donated items are carried at fair market value at time of donation. Donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Depreciation is provided for using the straight-line method over the respective useful lives of the respective assets.

Property improvements	10 years
Furniture, fixtures & equipment	5-10 years
Automobiles	5 years

Maintenance and repairs are charged to expense when paid. Major renewals and betterments are capitalized. When property or equipment is sold or retired, the related cost and accumulated depreciation are removed from accounts and any gain or loss is included in revenue or expenses. Additions with a cost or fair value of \$500 or less are expensed.

**Mother's Refuge
Notes to Financial Statements
September 30, 2014**

Note A - Summary of Significant Accounting Policies (Continued)

Functional Allocation of Expenses

Directly identifiable expenses are charged to programs and supporting services. Expenses related to more than one function are charged to programs and supporting services on the basis of periodic time and expense studies. Management and general expenses include those expenses that are not directly identifiable with any other specific function but provide for the overall support and direction of the Organization.

Income Taxes

No provision for income taxes is included in the Statement of Activities since the Organization is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code. There was no unrelated business income for the year ended September 30, 2014. The accounting standard on accounting for uncertainty in income taxes addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under that guidance, the Organization may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities based on the technical merits of the position. Examples of tax positions include the tax-exempt status of the Organization and various positions related to the potential sources of unrelated business taxable income (UBIT). The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. There were no unrecognized tax benefits identified or recorded as assets for the year ended September 30, 2014.

The Organization files form 990 in the federal jurisdiction. The organization is not at the present time under examination by any taxing authority. Effectively, all years for federal and state income examination are closed for any year ended prior to September 30, 2011.

Contributed Services and Goods

Various individuals and organizations have made contributions of their time and products for the benefit of Mother's Refuge. The Organization records contributed services and goods as revenue and assets or expenses if the services or goods create or enhance a non-financial asset or when the contributions are goods and services that would typically need to be purchased by the Organization if such goods and services had not been contributed. During the year ended September 30, 2014 the Organization recognized revenue for \$23,000 of donated supplies which were used in its program activities. At September 30, 2014, management estimates that \$10,000 of donated supplies remains on hand.

The Organization also received donated building materials and professional services while rebuilding the Organization's shelter. The Organization has estimated the value of these materials and services to be \$62,110 for the year ended September 30, 2014.

Estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Mother's Refuge
Notes to Financial Statements
September 30, 2014

Note B - Property and Equipment

Property and equipment consists of the following at September 30, 2014:

Shelter rebuild in progress	\$ 298,718
Building improvements	16,329
Furniture, fixtures and equipment	23,519
Automobiles	16,500
Total property and equipment	<u>355,066</u>
Less accumulated depreciation	(41,919)
Net total	<u>\$ 313,147</u>

The Organization's depreciation expense was \$4,059 for the year ended September 30, 2014. Non-depreciable assets include the shelter rebuild in progress. The Organization is currently in the process of rebuilding its shelter which was damaged by fire. Depreciation will begin when the shelter rebuild is complete and the asset is placed in service.

Note C - Intangible Assets

In connection with the September 2012 lease of a 2012 Honda Civic, the Organization made a down payment that partially consisted of capitalized cost reduction in the amount of \$1,864. Amortization expense and accumulated amortization for and as of the year ended September 30, 2014 was \$621 and \$1,294 respectively. Estimated amortization expense is \$570 for the year ended September 30, 2015.

Note D - Temporarily Restricted Net Assets

Temporarily restricted net assets at September 30, 2014 consists of the following:

Restricted as to Use:

One on one care	\$ 4,000
Total temporarily restricted net assets	<u>\$ 4,000</u>

Note E - Commitments

While the Organization's permanent shelter is being rebuilt, the Organization is leasing temporary shelter space on a month to month basis from a local church. This agreement calls for rent to be paid at a base rate of \$1,000 per month, with an additional 1,500 per month due based on settlement of the Organization's fire insurance claims. Rental expense for this lease was \$40,000 for the year ended September 30, 2014, which includes \$30,000 of current period rent recognized, and \$10,000 of formerly contingent rent related to the prior year which became due upon settlement of the insurance claim. \$11,000 of this rent is payable at September 30, 2014.

Mother's Refuge
Notes to Financial Statements
September 30, 2014

Note E - Commitments (Continued)

Effective October 15, 2010, the Organization signed a two year lease agreement for their current office location for \$838 per month. Rental expense under this lease was \$10,056 for the year ended September 30, 2014. The lease has continued month to month since ending in October 2012.

In September 2012, the Organization leased a 2012 Honda Civic for a term of 36 months at a rate of \$136 per month. Rental expense under this lease was \$1,632 for the year ended September 30, 2014. Under this lease, future minimum lease payments are due as follows for the fiscal year ending:

September 30, 2015 - \$1,496

Note F - Advertising Expense

Mother's Refuge expenses all advertising costs when paid. Advertising expense for the year ended September 30, 2014 is \$16,251.

Note G - Grants/Contracts

As of September 30, 2014 the Organization has Grants/Contracts receivable as follows:

Receivable in less than one year	\$ 85,772
Total Grants/Contracts at September 30, 2014	<u>\$ 85,772</u>

All Grants/Contracts are expected to be collected within one year. All Grants/Contracts recorded as receivables at September 30, 2014 are expected to be fully collectible based on previous experience.

Note H - Beneficial Interest in Net Assets Held by Community Foundation

The Organization signed an agreement with the Truman Heartland Community Foundation (the Foundation) to establish the Mother's Refuge Fund (the Fund) with two sub funds; the Mother's Refuge Operating Reserve Fund and the Mother's Refuge Endowment Fund, whereby the Organization originally transferred funds in the amount of \$90,100 to the Foundation. The original purpose of the Operating Reserve Fund was to receive assets of the Organization that have been earmarked for short term investment, with the annual net income from the fund to be distributed to the Organization on an as needed basis at the request of Mother's Refuge. The original purpose of the Endowment Fund was to receive assets of the Organization that have been earmarked for long term investment, with the annual net income from the fund to be distributed to the Organization on an as needed basis at the request of Mother's Refuge.

The agreement requires requests for distributions from the Fund may be made upon the Foundation's receipt of the written recommendation of two of the following officers of Mother's Refuge: President, Vice President, Secretary or Treasurer. The agreement further states that the Foundation reserves the right to make the final decision regarding distributions from the Fund.

Note I - Endowment

Endowment Overview

The Organization endowment consists of an investment account and a portion of the cash balance established for future Board projects. The endowment includes only funds designated by the Board of Directors to function as endowments. As required by GAAP, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions, of which none exist currently.

Return Objectives and Risk Parameters

The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include board-designated funds. Under this policy, the endowment assets are invested in a manner that is intended to produce reasonable return while assuring a moderate level of investment risk. The Organization expects its endowment fund, over time, to provide an average rate of return greater than 5 percent annually. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives

To satisfy their long-term rate-of-return objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Endowment assets are placed in the Mother's Refuge Endowment Fund at the Truman Heartland Community Foundation.

At September 30, 2014 unrestricted net assets were designated by the Board as endowments were as follows:

Endowments:

Future Board Projects	<u>\$ 11,253</u>
-----------------------	------------------

Composition of and changes in endowment net assets for the year ended September 30, 2014 was as follows:

Board-designated endowment net assets, beginning of year:	\$ 10,329
Investment income	364
Net appreciation	668
Administrative fees	(108)
Board-designated endowment net assets, end of year	<u>\$ 11,253</u>

Note J - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy are described as follows:

- Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date.
- Level 2: Directly or indirectly observable inputs as of the reporting date through correlation with market data, including quoted prices for similar assets and liabilities in active markets and quoted prices in markets that are not active. Level 2 also includes assets and liabilities that are valued using models or other pricing methodologies that do not require significant judgment since the input assumptions used in the models, such as interest rates and volatility factors, are corroborated by readily observable data from actively quoted markets for substantially the full term of the financial instrument.
- Level 3: Unobservable inputs that are supported by little or no market activity and reflect the use of significant management judgment.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used needed to maximize the use of observable inputs and minimize the unobservable inputs.

Following is a description of the asset methodologies used for assets measured at fair value:

Beneficial interest in assets held by Community Foundation: Valued at contract value, which approximates fair value. Contract value represents contributions made under the contract, plus investment income and appreciation (depreciation), less withdrawals and administrative expenses.

The following table sets forth by level, within the fair value hierarchy, the Organization's assets at fair value as of September 30, 2014.

	Assets at Fair Value as of September 30, 2014			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 16,678	\$ -	\$ -	\$ 16,678
Beneficial interest in assets held by Community Foundation	-	-	99,780	99,780
Total	<u>\$ 16,678</u>	<u>\$ -</u>	<u>\$ 99,780</u>	<u>\$116,458</u>

The mutual funds are presented as "other assets" in the statement of financial position.

Note J - Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Organization's level 3 assets for the year ended September 30, 2014:

	Year Ended September 30, 2014
Balance, beginning of year	\$ 98,138
Investment income	1,962
Capital gains	668
Administrative fees	(988)
Total Assets at Fair Value	<u>\$ 99,780</u>

Note K - Extraordinary Event, Fire at Shelter

On October 8, 2012 the primary housing facility used by the Organization was severely damaged by fire. The Organization is currently in the process of repairing, rebuilding and expanding the shelter. The Organization is expanding the shelter in order to be compliant with modern building codes. The Organization's insurance policies have provided funds to cover a portion of the rebuild. As of September 30, 2014, insurance proceeds received to date were \$246,696. \$14,823 of these proceeds were recognized in the year ended September 30, 2013 to the extent of the net book value of the assets destroyed by fire. The remaining proceeds of \$231,873 were recognized in the year ended September 30, 2014. No additional insurance proceeds are expected after September 30, 2014.

Rebuilding costs in excess of insurance proceeds will be paid for by the Organization. The Organization's Board has designated a portion of unrestricted net assets to be used for the shelter rebuild. At September 30, 2014 \$125,531 has been designated for this purpose. If additional funds are needed, the Board may elect to designate additional funds for this purpose in future years. If these designated funds exceed the amount needed, excess funds may revert back to being used in the Organization's general operations.

The Organization anticipates that a portion of the materials and labor included in this cost will be provided to the Organization in the form of non-cash contributions and donated services. It is not clear at this time what affect these contributed materials and services will have on the cash needed for the project.

Note L - Concentrations

Approximately 35.31% of the Organization's support was received from the combined funding of the Missouri Department of Social Services and the State of Missouri. This percentage has been significant in prior years as well. If these Organizations terminated their relationships with Mothers Refuge it would have a significant impact on the Organization's operations.

Note N - Subsequent Events

Management has evaluated subsequent events through October 2, 2015, the date which the financial statements were available for issue.

As mentioned in Note K, the Organization is in the process of rebuilding its primary shelter which was destroyed by fire in October of 2012. The shelter rebuild was substantially completed in December 2014, and the Organization's residents began moving back in at that time. The total cost of the completed project was approximately \$379,000, which includes donated building materials and professional services estimated at approximately \$68,000.

INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTAL INFORMATION

To the Board of Directors of
Mother's Refuge

I have audited the financial statements of Mother's Refuge as of and for the year ended September 30, 2014, and have issued my report thereon dated October 2, 2015, which contained an unmodified opinion on those financial statements. My audit was performed for the purpose of forming an opinion on the financial statements as a whole. The Schedule of Contributions, Grants and Other Support is presented for the purpose of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

EXHIBIT B**VENDOR INFORMATION**

The vendor should provide the following information about the vendor's organization:

1. **Provide a brief company history, including the founding date and number of years in business as currently constituted.**

Since 1987, Mother's Refuge is a loving home to homeless, pregnant and parenting young women 21-years of age and under. By providing a physical place to live through pregnancy and up to one-year postpartum, Mother's Refuge has been a true alternative to abortion for at-risk young ladies facing an unplanned pregnancy for the past 29 years.

Our mission statement is to "*shelter and educate homeless, pregnant and parenting young women by providing comprehensive services, empowering them to make successful life decisions for themselves and their babies.*" We have provided a safe and loving home, including utilities, transportation, food, administration of medications, group parenting classes, clothing, and case management for more than 1,500 at-risk young women and babies.

2. **Describe the nature of the vendor's business, type of services performed, etc. Identify the vendor's website address, if any.**

Refuge is one of the few maternity homes licensed by the state of Missouri to house both pregnant and parenting teenagers and their babies. Our 29-year history of providing services for pregnant young women and babies demonstrates our commitment and stability to continue supporting this at-risk population.

We provide nutritional food for breakfast, lunch, dinner and snacks. We provide transportation to school, GED, medical appointments, community resources, pregnancy and parenting classes and other mandatory appointments. Some of the required pregnancy and parenting classes our clients attend include SIDS, Safe Sleeping, Car Seat Safety, Breastfeeding, Nutrition, Parenting, Attachment, Have a Healthy Baby, Baby Care, Bedtime Routine, Bath Safety, Nutrients for your Baby, and Child Abuse Prevention. Residents attend classes on personal hygiene, healthy relationships, domestic violence prevention, career building, budgeting and personal goal setting. They are taught how to be a responsible parent, how to take care of themselves and their homes. We conduct weekly tutoring sessions and closely monitor their school progress to ensure they are progressing in their educational experiences.

Our program criterion is potential clients must be pregnant and have no safe place to reside. Homeless means parents, boyfriend or friends have asked them to leave; they have dysfunctional families; or have no parents or guardian. In most cases, they are fending on the streets by themselves. Their backgrounds vary, but most are from homes that include physical, emotional, sexual, drug, and alcohol abuse, prostitution or families involved in crime. They have run out of options or would not consider living in a shelter. Long-term care is crucial to make positive lifelong changes.

While in our program young moms are required to continue their education and work towards improving their life situations. They must attend classes, progress through our Five-Step Empowerment program and participate in our Earn as You Learn Assimilated Money program.

We are committed to helping young moms through their unplanned pregnancy and to continue assisting them and their baby's post-partum. Residents may stay in our facility for up to one year after their babies are born. This important fact separates us from most facilities, not only in Missouri, but also in the United States. Most homes only allow the young women to stay a few weeks after delivery. We feel that this unique option makes Mother's Refuge a one-of-a-kind shelter in Missouri and contributes to our continued success. We provide case management and infant and personal supplies through our Aftercare Community Outreach program after the clients leave our facility. This allows us to monitor the well-being of the babies and mother for years to come.

Mother's Refuge can be found on the internet at www.MothersRefuge.org.

3. Provide a list of and a short summary of information regarding the vendor's current contracts for similar services.

Mother's Refuge receives funding through the Homeless Challenge Grant for \$15,000 per year through Jackson County. This contract is to provide bed nights for homeless, pregnant and parenting young women.

We have a contract with the State of Missouri to provide residential care for pregnant and parenting young women and their babies who are wards of the State of Missouri. We receive \$140 per day for shelter, food, transportation, clothing and other necessities and supplies.

4. List, identify, and provide reasons for each contract/client gained and lost in the past two (2) years.

Mother's Refuge has maintained the same contracts over the past two years and have not lost any to date to provide similar services.

5. In the table below, indicate if the vendor is a not-for-profit entity that promotes one or more of the following four (4) purposes established by Congress under 42 U.S.C. Section 601 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996. If a not-for-profit entity, describe past experience relative to the four (4) purposes.

Purposes Identify specific information about experience:	Clearly identify and describe the experience
Providing assistance to needy families so that children may be cared for in their own homes or in the homes of relatives	We provide shelter for homeless, pregnant and parenting young women and help reunite parenting teenagers with their families so they and their child can move back home and continue parenting. We also assist parenting young women to obtain permanent housing in order to parent their infant in a stable home environment.
Ending the dependence of needy parents on government benefits by promoting job preparation, work, and marriage	All pregnant and parenting young women are required to continue their formal education and are encouraged to obtain higher education. During their residential care they participate in our Launch to Independence Life-skills program which is an Earn

	as you Learn based curriculum. They receive job preparation training, save 75% of earned income and learn about the benefits of family life in our self-esteem classes and activities.
Preventing and reducing the incidence of out-of-wedlock pregnancies and establish annual numerical goals for preventing and reducing the incidence of these pregnancies	Mother's Refuge tries to reduce the incidence of out-of-wedlock pregnancies through our self-esteem classes and activities. We encourage young moms to set attainable short and long term goals for their education, finances and personal lives postponing future pregnancies.
Encouraging the formation and maintenance of two-parent families	Through our self-esteem and parenting classes we encourage the formation and maintenance of two-parent families. If the father is involved we invite him to participate in medical appointments, pregnancy and parenting activities. We also promote individual and family counseling.

6. **Describe the structure of the organization including any board of directors, partners, top departmental management, corporate organization, corporate trade affiliations, any parent/subsidiary affiliations with other firms, etc.**

Mother's Refuge Board of Directors is the governing body of Mother's Refuge which votes to approve financial goals, the annual budget, organizational and operational policies and procedures. Formally, they meet quarterly and informally several times throughout the year. The board currently consists of six members: Cindy Cotterman, Board President; Ed Minor, Vice-President; Doug Horn, Secretary; Betty Allen, Treasurer; Ramona Cook, Member; Brett Gordon, Member; and David Domsch, Founding Board Member Emeritus.

The top departmental management consists of Robert Zornes, Executive Director; Angel McDonald, Program Director; Kimberlee Peppers, Program Manager; Julie Johnson, Case Manager; and Cassie Lara, Education Coordinator.

The Board of Directors and management work closely to utilize other community resources as volunteers, teachers, for fundraising events, to obtain expertise, training, and other such activities. Some of the organizations we utilize is the University of Missouri Extension Program to teach nutrition classes, the Independence Health Department also teaches classes on health related topics, the Keeler's Women Center, Harvesters, and many others.

7. **Provide a list summarizing any pending or final legal proceedings involving you or your company that took place in any court of law, administrative tribunal or alternative dispute resolution process that was filed, settled or gone to final judgment within the last three (3) years. The summary need not disclose confidential information of a disputed allegation of fact or law, but must contain the allegations made and/or contested or findings of the court of law, tribunal or dispute resolution process. Failure to provide a full and accurate summary of legal proceedings may result in rejection of the proposal or termination of any subsequent contract.**

There is no pending or ~~any~~ legal proceedings involving Mother's Refuge within the last three years.

EXHIBIT F**METHOD OF PERFORMANCE**

The vendor should present a written plan for performing the requirements specified in this Request for Proposal. In presenting such information, the vendor should specifically address each of the following issues:

1. **Identify the service location as well as any satellite locations. Describe the geographic proximity of the services being proposed to the majority of clients to be served. Describe how women initially access services and locate the service location.**

Our home is located at 3721 Delridge in Independence, Missouri near a local bus line and by the Truman Sports Complex. More than 85% of our clients are from within a 20-mile radius of our shelter. We are in the Independence School District, which provides transportation to and from school. We are less than 10 miles from all of our service providers. Most of the health agencies provide transportation to doctor and health-related appointments.

Residents are able to access the local bus system in order to utilize additional community resources. We also have two agency vehicles to transport residents. Restaurants, churches, recreational, and employment opportunities are within walking distance of our home.

Women initially access Mother's Refuge services and locate our home through phone or email contact with our case manager, Julie Johnson. They arrive by bus, friends, family or in some instances we meet clients at a public location and provide transportation to our home as needed.

Our office is located at 14400 E. 42nd St. S., Ste. #220, Independence, Missouri. This is within five miles of our shelter. The Executive Director and Program Director work out of the office location but conduct meetings, follow-up and program assistance at the home throughout the week.

2. **Describe the demographic profile of the at-risk population to be served. Describe outreach strategies for reaching the targeted at-risk population(s), including strategies for addressing the cultural diversity of targeted clients**

Mother's Refuge serves pregnant and parenting young women 21-years of age and under through the Alternatives to Abortion contract. The average age of our clients is 17 years. The pregnant young ladies we care for come from diverse backgrounds. Many of the women would have had an abortion, or due to homelessness, would literally have lived on the streets. Some have eaten out of dumpsters, or they have been kicked out of their homes. All are 21-years of age or younger, homeless, and without financial support. We are available to receive clients from anywhere in the state of Missouri. Most are behind in their formal education.

The majority of the girls who come to live with us have parents who are involved in prostitution, drugs and alcohol, gambling, or they are in prison. The parents/families of these young ladies are unable to offer either emotional or financial support. To say the least, their homes are extremely dysfunctional. Dysfunctional families often create an environment of neglect and abuse, placing the safety of pregnant or parenting moms and their babies at risk, and placing girls at a higher risk for abortion. Friends and/or boyfriends typically are unable to or unwilling to offer long-term support.

We strive to provide services to a diverse population. *Our past 3-year racial diversity statistics are:* 33% African American, 40% Caucasian, 10% Hispanic or Latino, 8% Bi-Racial, 6% Indian, 2% Asian, and 1% Russian.

Mother's Refuge has a long history of housing young women who do not fit into any other group home setting. Our license allows us to house 14 residents (including girls and babies). Last year, we served 52 young mothers and their babies and provided 3,389 bed nights. We have witnessed a 23% increase in the number of clients over the past few years. Based on the past year we propose Mother's Refuge will serve 50 homeless, pregnant and parenting young women and their babies with half of them qualifying for Alternatives to Abortion funding.

We are determined to reach our target population by increasing community awareness of our program. Reaching a diverse population has always been a core value of our agency. Our statistics of ethnic and cultural diversity reflects this commitment.

We have an informational video on YouTube, and have created a Facebook, Snap Chat and Twitter account to stay current with technology and reach a diverse population. Representatives from our organization visit area public and private schools each year to speak to young ladies. As a result, many school counselors, teachers and nurses refer residents to us. We conduct two open houses yearly and invite hundreds of area pregnancy resource centers; school counselors and nurses; social workers, doctors and nurses from area hospitals and clinics; the Division of Children's Services advocates and workers, along with other community pregnancy referral service providers. They tour our home, meet our key staff and learn more about our program. Along with the invitation, we mail them several one-page client brochures outlining the services we provide and how to contact our home.

We distribute informational brochures to young women at community events, schools and churches to promote our program in order to target at-risk, pregnant girls. We participate at several inner-city resource fairs to target a diverse population and distribute information.

We continue to pursue creative ideas on how to reach our targeted at-risk population while addressing their cultural diversity through management meetings and listening to outside advice.

3. **Describe the marketing of services.**

We market our program through speaking engagements, personal contacts, resource fairs, public media, annual newsletters, and annual open house events. Other marketing strategies include mailing informational materials to school nurses, social workers and counselors in a seven-county area. We visit local schools, resource fairs, churches, businesses, community groups and other agencies to inform prospective clients and referral sources about our program.

We have a web page and social media accounts available. We are listed on several search engines as an alternative to abortion, area community resource guides, and are listed in various telephone directories. We are also listed in 2-1-1. Some of the directories and guides include the Kansas City Yellow Pages, Independence Yellow Pages, Kansas City Black Pages, Shepherd's Guide, and the Maternal and Child Health Coalition Community Resource Guide.

Naturally, word of mouth from former residents brings girls to our doors. They are often our best advertisement. We have been featured on local television and radio stations. Robert Zornes, Executive Director, is often requested to comment on issues concerning homelessness of pregnant young women, teen pregnancy or abortion-related stories.

Comcast cable television network generously airs a public service announcement about Mother's Refuge to increase awareness for homeless, pregnant young women. This advertisement increased public awareness of our alternatives to abortion program and as a result we have seen an increase in those seeking our services, in-kind donors, and volunteers. Comcast plans to continue broadcasting this announcement.

We have been featured in several area newspapers and magazines. Some include The Independence Examiner, Kansas City Star, Kansas City Metro Voice, the Catholic Key, the Kansas City Business Journal, and Lee's Summit Journal of Home Living.

4. Identify the site where the Individual Risk and Needs Assessment and Initial Client Assessment will be conducted. Describe how client eligibility will be determined.

The Individual Risk and Assessment and Initial Client Assessment will be conducted at Mother's Refuge home located at 3721 Delridge in Independence, Missouri by our professional case management personnel in her private office.

Transportation to this location is arranged by our staff, and special arrangements are made when a potential client is unable to access our location through the bus system by providing cab vouchers or by staff to and from the Assessments.

Eligibility into our Residential Alternatives to Abortion program is determined by the professional case management team during the Initial Interview Process. Documentation is obtained for proof of pregnancy – a client must have proof of pregnancy by a professional physician's office or health clinic. The client must have a desire to carry an unborn child to term instead of having an abortion. The client must be 21-years of age or younger to reside at Mother's Refuge which is verified by a birth certificate and state issued photo identification card. If one is not available at the time of interview then the

case manager assists the client in obtaining this information and the age requirement is verified through prior education and medical records.

Income eligibility is determined through obtaining client and family employment information, using paycheck stubs if available, utilizing the contact information for the employer, case management contacts and verifies employment, also using past tax records when available. To be eligible for the Alternatives to Abortion program the client must meet the definition of poverty established by the federal government and be at or below 185 percent of the federal poverty level or below as determined by the exemption status on the previous or current year Federal income tax filing annually.

The client must be a Missouri resident as defined as a person who has fixed their home/dwelling in Missouri, not for any special or temporary purpose, but with a present intention of remaining in Missouri permanently or for an indefinite period of time, or defined as "Missouri domicile", in order to be eligible to enter into the Alternatives to Abortion program at our facility. This is verified by previous address verification through a landlord, parent, or education records when such information is available. If the client is living friend to friend or on the streets this is verified through the client and any family or friends available to be contacted.

The potential client must not be receiving Alternative to Abortion program services from another provider in order to be eligible to participate in the Alternative to Abortion program at Mother's Refuge. This is determined by the professional case manager during the initial eligibility interview.

For Mother's Refuge Residential Program eligibility the potential client must not have a safe place to live. This means they are either homeless, living on the streets, living friend to friend, living in a currently abusive or neglectful environment, have been asked to leave their current living situation, or cannot afford to provide a safe and stable home for themselves and their unborn child. All of these factors makes the client high risk for choosing an abortion.

5. Describe the development and updating of the Individualized Pregnancy Continuation Plan including the involvement of the client in the process.

After determining the eligibility for the Alternative to Abortion program, the case managers complete the Individual Risk and Needs Assessment within the next five working days and enter the data collected into the data system with the reasons for such determination. The professional case manager, Ms. Johnson, and the client develop an Individualized Pregnancy Completion Plan (IPCP) based upon the results of the Individual Risk and Needs Assessment form and the Initial Client Assessment Plan, within ten calendar days of admittance into the Alternative to Abortion program. This plan encompasses the duration of the pregnancy and continues for one year post-partum. Her strengths, weaknesses, coping skills, current situation and short and long-term goals are identified. The client and case manager establish measurable goals together. This includes an initial plan to address urgent issues along with specific measurable objectives.

They discuss current education obtained and future education goals while identifying available education services and support systems available. It is a requirement of Mother's Refuge Residential Program for the client to continue their formal education through the public school system, a General Education Development program, Community College, Trade School or a Job Training program.

Identification of and referrals for additional client services that are needed by the client are identified and a plan to contact and begin working towards obtaining goals through other community resources are formulated. The case manager works directly with the client to perform goal-oriented activities which organize, coordinate, refer, and monitor the delivery of the identified additional client services based on the measurable objectives that have been identified in order to support the continuation of the client's pregnancy.

The case manager records information regarding the referral to the MO HealthNet Prenatal Case Management program, Building Blocks of Missouri program, the Missouri Community-Based Home Visiting program and the Healthy Start program with the dates of referral, follow-up documentation of referral and whether the client was approved or denied for the programs.

The case manager oversees and manages all other IPCP individual goals and requirements to provide maximum effectiveness for each dollar expended and to ensure all requirements of the plan are performed and accomplished.

The IPCP is reviewed and updated formally once a month (within thirty calendar days), by the case manager and client, until program completion or when the specific objective has been met. The case manager updates the IPCP as needed during discussions with the client to ensure the objectives and services continue to address the needs of the client. She also continually assesses the client for domestic violence, and if determining further resources or protective measures are needed, she coordinates available resources for the client and follows up with progress of such objectives.

The case manager assesses the client's ability to provide a safe sleep environment for the client's infant following the birth. While in Mother's Refuge Residential Program, the sleep environment is monitored by direct care staff and recorded in individual daily logs that are monitored and discussed with case management and directors for any concerns. Upon discharge of the residential program, the case manager will assess safe sleep environment for the infant and provide a pack-n-play when needed.

The case manager completes an Evaluation Progress Report, which is signed and dated by the client and kept in her Resident Binder. The case manager records specific information on goals and achievements, additional short-term goals, and other information since the last update or evaluation. She documents strategies for the client's education regarding available services and support systems, referrals for services and the outcomes of the referrals. This is a client-centered process and is documented into the data system. Six to eight weeks after the baby's birth, the new mom is evaluated for

post-partum depression by the professional case manager using the Edinburgh post-partum depression screening scale and necessary steps for additional help are taken if needed. This is noted in the IPCP and updated as needed. The Post-Partum Assessment is recorded in the data system within ten calendar days after completion. The case managers also document all client training in the state agency's data system along with responsible paternity education under the client's name in a timely manner as indicated in the IPCP.

All referrals for additional services with specific referral information and the result of referral is documented in the data system by the case manager. Within seven calendar days of the client's discharge or disenrollment for the Alternative to Abortion program the case manager will update that state's data system with the reason for discharge/disenrollment, the date and will close the record. The case manager will determine that the client is no longer eligible to receive Alternative to Abortion program services if the services have been received for 12 months post-partum or the client has not accessed services for at least sixty calendar days.

6. Provide a detailed description of the case management process. Identify the hours of service including emergency coverage outside of business hours and weekends.

Our case management starts when a call is received seeking services. The person receiving the call transfers it to our case manager. A Crisis Call form is completed while interviewing the caller and all possible information is collected. She records whether the girl is invited for an interview or where she was referred with follow-up information. If the girl is eligible for intake, an intake procedure is followed over the phone explaining our program, expectations and an invitation for a pre-placement interview. She is asked to bring a list of documents including picture identification, legal guardian, proof of pregnancy, income verification, etc.

During the pre-placement interview the pregnant young woman tours our home, is interviewed by the case manager and program manager and given a copy of our program description and requirements. The case manager conducts an assessment to document risk factors and identify services needed to minimize the risk of abortion and to complete the pregnancy. The Individual Risk and Needs Assessment information is collected along with income verification and all other requirements to determine eligibility for the Alternatives to Abortion program. If the girl is accepted, she must sign a release for MAAC Link, and complete all other required entry documentation along with an agreement to participate in our residential program. Identification is copied and a date is set for official entry into Mother's Refuge. A brief outline of the interview is documented by our case manager and she maintains all client specific documentation in a confidential individual Resident Binder.

The case manager determines if the client has applied for MO HealthNet or WIC. If she has not, then the case manager assists the client in submitting an application for each program. If the client is admitted into our residential program she is not eligible to receive Food Stamps because we provide all nutritional food and meals. The case manager will assist the client in suspending this assistance if the client is currently

enrolled in that program. The case manager also refers the client to the MO HealthNet Prenatal Case Management program, Building Blocks of Missouri program, the Missouri Community-Based Home Visiting program, and the Healthy Start program.

After completion of the Individual Risk and Needs Assessment form, the case manager completes the Initial Client Assessment and enters this information into the data system. This details the circumstances leading to the referral, risk factors, family and other support systems, current behaviors, current level of functioning, educational history, family disabilities, previous home/living situation, amount of family involvement, and other community resources needed.

The case manager and client then begin developing an Individualized Pregnancy Completion Plan (IPCP) based upon the results of the Individual Risk and Needs Assessment form and Initial Client Assessment with the client's input. This plan encompasses the duration of the pregnancy and continues for one year post-partum. Her strengths, weaknesses, coping skills, current situation and short- and long-term goals are identified. The client and case manager establish measurable goals together. This includes an initial plan to address urgent issues. The IPCP is reviewed and updated formally once a month, by the case manager and client, until program completion or when the specific objective has been met. The case manager completes an Evaluation Progress Report, which is signed and dated by the client and kept in her Resident Binder. The case manager records specific information on goals and achievements, additional short-term goals, and other information since the last update or evaluation. She documents strategies for the client's education regarding available services and support systems, referrals for services and the outcomes of the referrals. This is a client-centered process and is documented into the data system. After the baby's birth, the new mom is evaluated for post-partum depression and necessary steps for additional help are taken if needed.

When a client moves from our facility, she completes an evaluation form and is placed in our Aftercare Program for an additional year. In Aftercare, the client receives continued case management, home visits, emotional support, and other needed supplies such as a Pack N' Play. The case manager contacts former residents to ensure their baby is receiving proper vaccinations, well-baby check-ups, and ensures goals are being pursued.

Our case manager is responsible for maintaining all client specific documentation in a confidential Individual Resident Binder, describing each case management function provided as it relates to the IPCP, recording the actual time involved in each function, entering this information in the data system and submitting the required reports to the Executive Director, Program Director and Missouri Department of Health and Senior Services.

Normal case management hours are Monday through Friday 9am to 5pm. However, to provide effective services, our case manager often will stay later in the evenings or work on weekends to provide quality care for our residents. She is also available by phone at all other times for emergencies. We provide 24-hour awake staff seven days a week all

year long to answer phones and provide direct care for clients, staff members have access to the case managers' cell phone number as well as the directors' numbers for emergencies. The cell phone numbers are also posted in our home for easy contact. All case management services are provided by the methods of face-to-face appointments where the client and case manager discuss, review or update the IPCP; home visits where the case manager and client visit outside of Mother's Refuge to review, discuss or update the client IPCP; or non-face-to-face appointments through telephone conversations, email communication, written communications, and other forms of non-face-to-face communication between the client and case manager, or on behalf of the client which information has occurred regarding the IPCP, including referrals.

Our case manager is responsible for coordinating and providing direct contract services. She conducts initial client assessments, conducts case management, helps develop the individual pregnancy continuation care plan, helps set up education services for clients, fosters client-centered decision making processes in regard to pregnancy and postpartum plans, is responsible for outside referrals, supervises the administration of medications, enters all required client information into the data system and makes home visits to former residents.

Our case manager coordinates with the education coordinator in identifying educational possibilities and needs. The education coordinator works with staff and outside resources to enroll the client in necessary classes and services. The case manager ensures the client receives prenatal parent education and parenting skills training for the needs of the client as determined through the assessments and reviews. Mother's Refuge provides learning opportunities through interactions of the father of the client's infant and the client(s) children, and/or those facilitating the paternity acknowledgement. We use Earn as You Learn Curriculum that is evidence-based information. All education, training, and classes are documented individually with the date of service, location, topic and time spent training with the name and signature of the client. The mandatory training topics for all clients include Safe sleep for infants following the American Academy of Pediatrics Guidelines; Breastfeeding; Importance of taking folic acid in the prevention of neural tube defects; Use of substances during pregnancy including alcohol, tobacco, and other drugs; Importance of prenatal care; Immunizations; Shaken Baby Syndrome; and the importance of preconception care and advantages of birth spacing as it relates to the health of the mother and infant.

The case manager works closely with the program manager to monitor the clients' direct care services provided by our staff. The case manager sets appointments with clients to ensure goals are on target and being met. The client turns in all medical, educational and important documentation to the case manager.

Mrs. Johnson, our case manager, is responsible for keeping all documentation in an orderly manner in Individual Resident Binders. These are reviewed for accuracy and completion periodically by the program manager, program director, and state agencies. Reports are submitted to the program manager and directors on each client's goals, status, needs and recommendations. A weekly meeting is conducted with key personnel to

ensure all services are being provided adequately and in a timely manner. The directors supervise all data reporting and monthly billing.

7. **Provide a preliminary outline and description of the proposed content of the required trainings. Additionally, provide copies of any training materials (e.g. manuals, resource books, handouts, reinforcement materials) proposed for use in conducting the training sessions.**

All program participants are required to attend our Launch to Independence program which utilizes the Learn as You Learn evidence based curriculum on prenatal parent education and parenting skills training. All young ladies begin this program within the first two days of being admitted into our residential program. The education coordinator works directly with clients and the case manager to ensure all needed training is obtained and skills are acquired.

Training topics include:

- Safe Sleep for infants following the 2011 American Academy of Pediatrics Recommendations;
- Breastfeeding;
- Importance of taking folic acid in the prevention of neural tube defects;
- Use of Substances during pregnancy including alcohol, tobacco, and other drugs;
- Importance of prenatal care;
- Immunizations;
- Shaken baby syndrome;
- Car seat safety;
- Nutrition and healthy eating;
- Importance of preconception care; and
- Advantages of birth spacing as it relates to the health of the mother and infant.

Mother's Refuge direct care staff monitors the skills learned and offers hands-on assistance. The Learn as You Learn curriculum and Launch to Independence program utilizes cognitive skills, motor skills, valuing and comforting of the infant/child training. Each class is documented with each client's attendance including the date of service, location, topic, time spent in the training/class and a copy is kept in the client's individual file. Other topics that are taught through individual completion of assignments and tasks are reviewed by the Education Coordinator and missed items are discussed and corrected. This information is kept for future reference by the client after noted in individual client files of completion.

If fathers of the infant participate in responsible paternity education through group classes and activities this is noted in the mother's individual client file with the same information that is documented for the mother.

All staff members are trained as required by the State of Missouri licensing requirement regarding pregnancy, pre-natal care, post-natal care, client and infant issues, infant care, medication distribution, and other pertinent topics for the clientele we serve. All training is documented in individual employee files.

8. **Describe each of the Additional Client Services specified in the RFP. Explain the service delivery system including any referral network and referral plan. Describe the cultural competency of providers.**

The case manager will ensure the following additional client services are provided as needed in response to the Individualized Pregnancy Completion Plan developed in conjunction with each client.

Mother's Refuge case manager will ensure the provision of pregnancy-related health care for the client during pregnancy by a licensed health care provider. This includes the costs for prenatal visits, routine laboratory testing during the prenatal period and all care for pregnancy-related conditions. It will also cover the above for prenatal/delivery including the initial hospital visit, delivery and post-partum care. The case manager will work closely with the Women's Clinic at Centerpoint Hospital and have established a positive working relationship so that all women entering into our residential program may access health care by a licensed physician within 72 hours of admittance and, as required thereafter. When compiling the IPCP, medical insurance needs are addressed. If no health coverage exists or the client will qualify for MO HealthNet Insurance, the case manager sets this as a goal and assists the client in obtaining this service.

As indicated in the client's IPCP, Mother's Refuge will ensure the provision of medical care by a licensed medical provider for the client related to the maintenance of health, and prevention or treatment of illness, injury, or pregnancy complications, as such services related to the prevention of abortion. With the licensed medical provider meeting the professional and legal requirements to provide the required health care service in the State of Missouri. This will also include mental health care counseling and treatment to assist the client with management of mental illness or condition through a licensed/certified professional in the State of Missouri. We work closely with Preferred Mental Health Care and have a professional licensed counselor with Cornerstones Professional Counseling Center come to our home twice a week to meet with all our clients and offer professional counseling services. We also utilize other specialized counseling services in our area as needed by clients.

With the cooperation of the client in the monthly IPCP update, additional services are reviewed and discussed to determine other services that may be needed or required by the client. The case manager ensures the client receives accurate information related to placing an infant for adoption by another individual/family which may include legal assistance with adoption. Mother's Refuge works closely with the Love Basket Adoption agency along with other area agencies such as Catholic Charities to give clients an option to available adoption resources if it is determined this is the path she would like to choose upon delivery or thereafter. Through the formal monthly IPCP meeting and weekly informal meeting, the case manager follows up to make sure all questions are answered thoroughly, precisely and in a timely manner, as well as ensuring all support services are accessed as needed.

Clients are assisted in obtaining child care for the clients' child or children when the parent or guardian is absent due to participation in any Alternative to Abortion Program

service which may include a relative not living with the client and her child or children, but not a live-in nanny service. Clients are also assisted in locating licensed daycare for children while the mother is working on her education and career goals, as well as while she is working. This goal is determined by the case manager and client during their IPCP monthly meetings.

Mother's Refuge provides clothing as needed by the client and the client's child including clothing related to pregnancy, newborn care, and parenting needs. This is part of the residential program benefits for all clients, and clothes are stored in the facility or purchased as needed at local retail stores.

The clients of Mother's Refuge Alternative to Abortion program are provided with domestic abuse protection including any service, transportation, and assistance with obtaining an order of protection, to assure the physical and emotional safety of the client and her child(ren). Many agencies such as Child Abuse Prevention Association (CAPA), Rosebrooks Domestic Violence Shelter, Hope House, Amethyst Place teach domestic violence classes, provide support groups for our clients and domestic violence counseling services to the clients of Mother's Refuge.

We work closely with the drug and alcohol addiction specialist at Preferred Family Care for individualized and professional services for clients that have been identified by our case manager during the IPCP as affected by, are high-risk, or have a history of drug and alcohol use. Testing and treatment along with monthly confidential, individual reports are shared with our agency in order to facilitate any additional needs or services a client may require. The treatment is defined as an individualized, group, or family program, that is facilitated by a trained, certified professional and facility, to treat individuals or families affected by alcohol, tobacco, or other drugs. All clients attend classes regarding the dangers of drug, tobacco and alcohol addiction provided by the Keeler Women's Center, Amethyst Place and other community organizations that specialize in this area of concern.

It is a requirement of Mother's Refuge Residential program to actively pursue formal education through public school, a General Education Diploma program, or other accredited education opportunities. This is immediately addressed in the IPCP by the case manager and the process of enrollment begins within the first week of admittance into our facility. If a high school diploma or GED has been successfully attained, clients must continue their education through business, vocational, or technical training, attend college, or have obtained employment in pursuit of identifiable educational goals. The case manager assists clients in meeting education requirements and monitoring their success. When additional help such as tutoring is needed the case manager arranges for this assistance to ensure a client's success. We work closely with the Independence School District which has a wonderful Parenting Points program our residents have embraced and look forward to participating in with their infants. Through this program they are able to continue their high school education while their infants are at daycare on location at Truman High School. This is an added benefit to high school students in our residential program.

Mother's Refuge provides food for all clients in our Residential program and through the IPCP we ensure that those who graduate into independent living but remain in our Alternative to Abortion program receive the food relating to pregnancy, newborn care and parenting needed through their participation in the WIC and food stamp programs. Clients are enrolled in WIC while living in our facility but are not able to redeem food stamps per regulations by the State of Missouri since food is a service we provide. However, the case manager assists clients in our Aftercare Transitional Living program in accessing this available resource. When we receive an abundance of food donations we also share them with previous clients.

Mother's Refuge provides safe housing for girls who are pregnant and parenting. They can enter our program anytime during their pregnancy and stay up to one year post-partum. During that time they work on the IPCP goals as established by the client and the case manager, all the while planning for more permanent living upon completing our residential program. We use area resources to find stable and sustainable housing for the client and her child(ren). Some identifiable resources we access are the Housing and Prevention Rehabilitation Program, Stepping Stones Independent Living Program, and Hawthorne Place Apartments for income-based living. Mother's Refuge provides housing for girls 21-years of age and under. We have a Residential Care license by the State of Missouri and are in good standing with all the appropriate permits such as a local business license, state and city fire inspections, food handling permit and building inspection. All inspections are available upon request. Mother's Refuge case manager assists clients in accessing community resources that help if they are in need of rent, house payments, a security deposit, and utilities of any kind as identified in the IPCP.

As mentioned earlier, Mother's Refuge requires clients to attend job training and a placement program that facilitates and/or enhances the employability of the client. If the infant's father is involved, the case manager will help him access these resources as well. The case manager will contact the proper community or government agency(ies) to acquire these programs as the need is indicated in the client IPCP.

As identified by the IPCP Mother's Refuge agrees to ensure the provision of newborn or infant care by a licensed medical provider as related to the maintenance of health or prevention of illness, and treatment of injury or illness for the infant in the 12 months after delivery. We will also ensure the client is provided with supplies relating to pregnancy, newborn care, and parenting. We provide infants and babies in our home with a safe sleep environment. If it is determined that participants in our Alternative to Abortion program that do not live in our facility are unable to provide a safe sleep environment for their infant, we will provide a Pack N' Play that meets the 2011 American Academy of Pediatric Guidelines.

The case manager will coordinate and Mother's Refuge will provide transportation if determined as a need in a client's IPCP for the client and the client's child(ren) in order to access services identified in the IPCP. We will also ensure the client is provided with ultrasound services as defined as high frequency sound waves used in monitoring and

imaging as medically necessary and ordered by a licensed healthcare provider which will be delivered by a certified ultrasound technician if identified in the client's IPCP as a need. Mother's Refuge maintains a cooperative working relationship with the Women's Clinic of Centerpoint Hospital for medical needs. We also have good relationship with other licensed and certified professionals in the area.

Our case manager will ensure the client is provided with other additional client services as it relates to assisting the client in carrying their unborn child to term and to assist the client in caring for their dependent children or placing the client's child for adoption. The case manager will assist the client in all other client services identified in the IPCP that are based upon the identified measurable objectives to support the client in the continuation of the client's pregnancy.

The cultural competency of our providers and referrals is visible when meeting their staff and programs. We take great care in fostering a personal relationship to ensure the integrity and competency of outside resources. Most are located within the inner city and reflect the diversity of our home. The residents will only go to services where they feel comfortable and safe. These agencies have been a vital resource that offers our clients professional service.

Our referral network and referral plan consist of knowledge of resources within the state of Missouri that assist a client in carrying her unborn child to term instead of having an abortion and assist her in caring for her dependent children. We use several sources to guide others to possible shelters and agencies equipped to help homeless pregnant and parenting women. One of our best resources is other area shelters and pregnancy resource centers. We use the Community Resource Guide, the Maternal & Child Health Coalition of Greater Kansas City, Inc., the United Way Child Care Referral Agency, the Rachel House, and the Women's Clinic to name a few. We are a member of and work closely with the Missouri Alliance for Life. We are also a member of the Missouri Child Care Association, Missouri Non-Profit Association, and the Independence Chamber of Commerce.

9. Describe how the information obtained in the client satisfaction is utilized to improve upon services provided.

The Client Satisfaction Survey results will be evaluated by our management team which consists of our Executive Director, Program Director, Program Manager, Case Manager, and Education Coordinator. We use all information from funders, client surveys, previous and current clients to make necessary changes to strengthen and increase the services provided by our agency. Our ultimate goal is to provide an alternative to abortion in a safe and loving environment while preparing young women for a life of independence and self-sufficiency. This is only possible through making changes as necessary to improve upon the quality of care in response to the population we serve. We welcome input by all parties involved and embrace positive change as a necessary means to grow and perform the best job we can for the homeless, pregnant and parenting young women and babies we serve.

10. **Describe the plan for developing and implementing an evaluation and continuous quality improvement plan. Include evidence of evaluation and continuous quality improvement process activities that evaluate (1) infrastructure, (2) method of delivery of services, (3) outcomes, and (4) compliance with standards and licensure.**

Our infrastructure is under constant supervision from our Program Director, Executive Director and our Board of Directors. The board meets annually to discuss all aspects of our programs and any suggested changes from our directors or other staff members. The board leads in the organization's strategic planning. The board is responsible for all fiscal matters, approving all expenditures, and a board member signs all checks. Our directors meet weekly at a formal meeting with the program manager, case manager, and education coordinator. They are also available 24-7 for any problems via cell phone.

The staff report daily any maintenance or safety issues or program and client concerns through their daily communication log that is read by everyone and reported to the directors. They also communicate by phone, email and written communication. A monthly report is submitted to the program director regarding all maintenance needs along with fire, safety and emergency drills. At that time all actions are reviewed and monitored. Major projects are approved by the executive director and board members.

We conduct monthly required meetings for all staff members to provide trainings on policies and procedures, evaluate the effectiveness of the program, and address other issues or concerns they may have. Our staff provides quality services to our clients. Many of our staff has been with us for several years. Our turnover rate is relatively low, compared to national statistics for residential care facilities. Our staff is currently 35% minority.

All house parents write a daily log concerning each client. The entire staff, at the beginning of their shift, reads this report. This helps ensure a fair and balanced response to the girls' needs.

Our organization has many written procedures. This allows us to keep uniform policies for staff and residents. We have a staff employment handbook and additional policies such as Client Confidentiality, Medication Guidelines, Child Abuse and Neglect and Discipline Policies. All documents are signed, dated and kept in personnel records. All personnel are reviewed annually. All written procedures reviewed annually and are updated or modified as needed to best serve clients and ensure a cohesive, positive work and living environment.

We also meet with residents formally each week and informally throughout the week to receive input on delivery of services and the effectiveness of program methods. We listen to and evaluate all opinions and try to incorporate those we feel are most beneficial to the goals and objectives of our mission and program.

Our outcomes are recorded through statistics created by data recorded on a daily basis such as individual goals set, in progress, achieved; healthy pregnancies; healthy babies delivered; continued education goals set, in progress and achieved; healthy lifestyle

habits formed through nutrition, exercise and breaking addicting negative habits; classes attended and life-skills learned and exhibited; career and personal financial literacy goals set, in progress and attained; and successful completion of our Launch to Independence program that include the Earn as You Learn curriculum; as well as success in completing our Residential program and graduating to an independent stable living environment. There are many more statistics we record to ensure outcomes of our program and that clients meet the success we feel is necessary to continue a healthy pregnancy and either places an infant for adoption or successfully parent and become contributing members in our community. This is evaluated on a weekly, monthly and annual basis by management staff, directors and the Board of Directors. Programs and goals are adjusted accordingly, including financial goals and outreach activities.

We have a positive working relationship with the State of Missouri licensure personnel. When questions arise we are able to ask and receive answers immediately. Our licensure requirements are physically approved on-site twice a year to ensure compliance with state regulations and procedures.

11. **Identify the method of evaluation including indicators that can be measured for continuous quality improvement and capture the data necessary to evaluate the program impact. The plan should address plans and method to improve the program components and continuous quality improvement process activities.**

The data as discussed in the evaluation and continuous quality improvement plan is the record of individual and organizational statistics of health, wellness, births, knowledge obtained, classes attended, activities created for the improvement of life situations. Reports are created to identify the target population is being reached, that their individual needs are being met and goals are achieved. This documentation is found in each client's individual personal and confidential folder as well as a general consensus to use as a tool for program evaluation in determining the effectiveness and impact of current organizational activities and programs.

When an indicator of ineffective programming is realized the management team meets to brainstorm ideas on how to better and more effectively achieve the desired goals and outcomes. We are constantly re-evaluating program and client services for efficiency and effectiveness.

One thing we found in our evaluation is that with the current teen population, if you do not allow them access to their cell phones they will remain homeless instead of seeking the help they desperately need in order to carry their unborn child to term in a safe environment. So now all clients are allowed to have access to their cell phones except when in class, at dinnertime and during sleeping hours. We have witnessed an increase in the number of clients that choose to live in our home and access the services we provide. Young moms have commented that they did not choose to live at another maternity home for that reason and would have continued to live friend to friend instead of giving up their phones and losing contact with their family and friends. This is a generation of technology and we are striving to meet them where they are while providing an opportunity to carry their unborn child(ren) to term and learn the skills

necessary to parent or place their infants with an adoptive family in a supportive environment.

12. **Organizational Chart** - The vendor should provide an organizational chart showing the staffing and lines of authority for the key personnel to be used. The organizational chart should include (1) The relationship of service personnel to management and support personnel, (2) The names of the personnel and the working titles of each, and (3) Any proposed subcontractors including management, supervisory, and other key personnel.

- The organizational chart should outline the team proposed for this project and the relationship of those team members to each other and to the management structure of the vendor's organization.

Please see the attached organizational chart.

13. **Along with a detailed organizational chart, the vendor should describe the following:**

- How services of the contract will be managed, controlled, and supervised in order to ensure satisfactory contract performance.
- **Total Personnel Resources** - The vendor should provide information that documents the depth of resources to ensure completion of all requirements on time and on target. If the vendor has other ongoing contracts that also require personnel resources, the vendor should document how sufficient resources will be provided to the State of Missouri.

The Executive Director and Program Director provide supervision for the management and coordination of all contract services. Reports and data are monitored and evaluated on weekly, monthly and an annual basis to ensure program requirements are met, goals achieved and successful client outcomes are realized.

Mother's Refuge employs four qualified personnel that can act as professional case managers that knows the Alternative to Abortion program requirements and can carry out procedures as needed. Our case manager has been performing these job duties since 2009. She is well qualified and has exhibited her ability on previous Alternative to Abortion awards to carry out the responsibilities and requirements of this contract while fulfilling other duties as required. She is responsible for coordinating and providing direct contract services. Our case manager coordinates with the education coordinator in identifying educational possibilities and needs. The education coordinator works with staff and outside resources to enroll the client in necessary classes and services. The case manager works closely with the program manager to monitor the clients direct care services provided by our staff.

14. **Economic Impact to Missouri** - The vendor should describe the economic advantages that will be realized as a result of the vendor performing the required services. The vendor should respond to the following:

- Provide a description of the proposed services that will be performed and/or the proposed products that will be provided by Missourians and/or Missouri products.
- Provide a description of the economic impact returned to the State of Missouri through tax revenue obligations.

- **Provide a description of the company's economic presence within the State of Missouri (e.g., type of facilities: sales offices; sales outlets; divisions; manufacturing; warehouse; other), including Missouri employee statistics.**

According to the National Campaign to Prevent Teen and Unplanned Pregnancy, the cost of unplanned teen pregnancy cost Missouri taxpayers at least \$215 million. Most of these costs to the public sector are associated with negative consequences for the children of teen mothers during childhood and their young adult years. They reported for Missouri taxpayers, the cost of these children born to teen moms included: \$48 billion for public healthcare; \$45 million for child welfare; and, for children reaching adolescence or young adulthood, taxpayers paid an increased rate of \$37 million for incarceration with \$66 million in lost tax revenue from decreased earning and spending.

Results provided by the National Center for Health Statistics reported teen girls have the second highest proportion of low birth weight babies compared to other age groups, second to mothers aged 45 or older. Low birth weight is linked closely to childhood morbidity, increased risk of numerous infant health problems such as lung and kidney problems, and difficulty maintaining their own body temperatures. Young moms are more likely to have premature babies which can cause a number of health complications and require special medical care. Premature birth is the leading cause of infant mortality.

Teen mothers are less likely to complete their high school education or obtain a college degree. Thus statistics report on average teen moms earn \$28,000 less than a young lady that delays pregnancy until her 20's. The proportion of all pregnancies that are unplanned is highest among teenagers who are less likely to receive vital pre-natal care, their babies are less likely to receive on-time vaccinations, and they are more likely to abuse their children.

Mother's Refuge provides a safe and secure home for young women that are facing unplanned pregnancies. The average age of our client is 17 years. We provide comprehensive services so they can carry their pregnancy to term under the care of a licensed physician while completing their high school education and following higher education goals for more earning power in the future. We provide all the necessary items for the pregnant and parenting young lady as well as for the infant for up to one year post-partum in our Residential program. The new mom is also taught proper parenting techniques, life-skills, and financial literacy. She receives counseling services while taught how to become independent, well-adjusted parent that contributes to our community.

These services provided by our agency have the potential to save Missouri tax payers \$148 million just in costs associated with the child. This does not include the increased ability of the mom to provide for her child without the aid of public welfare assistance as a result of being able to focus on education and career goals during pregnancy and post-partum. By spending \$100 per day for shelter and basic necessities for a pregnant young woman and one year post-partum, the cost can equal up to \$64,000 per mom and infant. This is a relatively small amount to pay upfront in order to save billions later down the road in our humble opinion. It seems well worth the positive result of a family that

breaks the cycle of poverty, teenage pregnancy and abuse through all the classes, counseling and support received during those crucial 21 months.

EXHIBIT G**IMPLEMENTATION PLAN**

Implementation or Readiness Plan - The vendor should sequentially list and briefly describe the tasks or events proposed for the implementation of the required services. If no tasks or events are required, the vendor should provide a statement of readiness. For each task/event identified, the vendor should identify the number of days required to complete the task/event, the personnel proposed to perform the task/event, and the number of work hours for each person.

- **Completion Day** should be specified as a certain number of days from state agency authorization to proceed with services until completion of the specific task and should be expressed as calendar days, not specific dates.
- **Assigned Personnel** should be identified by name rather than project title unless such personnel are yet to be hired.
- **Workhours** should indicate that time each assigned person will spend on the specific task.

EXHIBIT H**CLIENT SCENARIO**

The vendor should present a written narrative which demonstrates the method or manner in which the vendor proposes to satisfy the requirements of the Request for Proposal to conduct Alternatives to Abortion Program services for the client situation described below. The vendor should provide a not-to-exceed total price with a price analysis for the client services identified in the narrative.

* * * * *

Jane Doe has recently learned that she is 12 weeks pregnant.

Jane is 24 years old and a high school graduate with no post-secondary education. Jane has three other children, ages 6, 4, and 18 months. The father of the new baby does not work, and Jane is unsure if he will stay involved once the baby arrives.

Jane works part time at a fast food restaurant making \$8 an hour, but she would someday like to become a nurse. Jane lives in a two bedroom apartment with her three children, but she struggles to pay rent each month. Jane has an old minivan which she uses to get to work, but it frequently breaks down. Jane has never applied for any public assistance programs.

Jane lives in a rural area, about 25 miles from the contractor's service location and has contacted your organization to access the Alternatives to Abortion Program Services and intends to continue with services until 12 months post-partum.

Narrative:

(Mother's Refuge provides a home for pregnant and parenting young women 12-21 years of age and their infants, but we would call to get a variance from the State of Missouri if eligible. The below Narrative is based on a client that fits the requirements of our state license.)

- Mother's Refuge received a crisis call from Jane Doe. We collected all the pertinent information on our crisis call form.
- A case manager received the crisis call form and noted that Jane is eligible, according to our program guidelines, for an intake interview. The case manager also noted that because she is only 12 weeks pregnant, Jane would also be eligible for the Alternatives to Abortion Program services.
- The case manager called Jane to set up a time for an interview at Mother's Refuge.
- Jane arrived at Mother's Refuge at the designated interview time. The case manager welcomed her and asked her to tell any part of her story which she is comfortable sharing at that point. The case manager gave Jane a copy of the Mother's Refuge House Expectations as well as a copy of the Mother's Refuge Launch to Independence Education program to read, and then asked a series of questions that are part of the intake process. During this process, the case manager assessed Jane's answers and demeanor/behavior and determined whether the Mother's Refuge program would be of benefit to her. This is also a time for Jane to determine whether Mother's Refuge is a place she would like to live. After the interview, the case manager gave Jane a complete tour of the facility and told her we would call her the following day to let her know whether she had been accepted into our program.

- The case manager met with the program manager and went over the interview details and determined that Jane would be a good fit for Mother's Refuge residential program.
- The case manager called Jane to tell her she had been accepted into the Mother's Refuge program. She set a time for Jane to move into Mother's Refuge. The case manager told Jane we need a proof of pregnancy for our state requirements. Jane went to a crisis pregnancy resource center to obtain the proof of pregnancy.
- That afternoon, Jane moved in to Mother's Refuge. We gave her information about the bus schedule to see if it was feasible to take the bus as transportation to the fast food restaurant if her van breaks down.
- The case manager and Jane completed an application for pregnant women's MOHealthNet. The case manager took her completed application along with her proof of pregnancy and Mother's Refuge letter of residency to the Family Support Division office.
- The case manager called Independence Women's Clinic at Centerpoint Hospital, with whom we have a standing relationship, to set up an OB appointment.
- The case manager talked with Jane about her schooling options since she is interested in nursing. Jane set a goal to apply at the local community college, fill out her FASFA and have her high school transcripts sent to the college.
- The case manager helped Jane complete the application forms for the Supplemental Nutrition Program Women, Infants, and Children (WIC) and child care assistance. (Jane is not eligible to participate in the SNAP program while living at Mother's Refuge since we provide nutritional meals.)
- The case manager helped Jane set up appointments with local daycare providers to enroll in daycare.
- Jane is able to take the metro bus to work, daycare and community college if needed.
- Jane is explained that she has to save 75% of her earnings unless she is paying off outstanding debt, transportation or school costs, so that she can save for her own place while we provide for all her needs when she is living at Mother's Refuge. Jane is excited about this opportunity.
- Jane immediately began attending pregnancy, parenting and life-skills classes along with receiving hands-on mentoring and training. Jane continued this training while living at Mother's Refuge each day while assessing progress on skills and scheduling more in-depth hands-on training for skills Jane struggles with.
- The case manager assisted Jane with applying for the MO HealthNet Prenatal Case Management program, Building Blocks of Missouri program, the Missouri Community-Based Home Visiting program, and the Healthy Start program.
- Our case manager set up individual counseling for Jane and invited the father of the baby to attend some sessions along with some parenting classes and activities. He declined at this time but they are working on a parenting plan.
- Within two days of moving into Mother's Refuge, our Program Manager, along with the case manager, met with her to get her information for Alternatives to Abortion and do assessments – Individual Risk and Needs Assessment along with the Initial Client Assessment and developed a client-oriented Individualized Pregnancy Continuation Plan.
- Following this, the case manager regularly entered bed nights for and case notes about Jane on the Alternatives to Abortion website and our education coordinator entered in classes attended and other pertinent information.

- The case manager meets with Jane formally each month to review and discuss Janes Individualized Pregnancy Continuation Plan. They discuss her progress on goals, modify goals as necessary and set new ones. She also monitors all doctor appointments along with any other necessary appointments to ensure Jane is able to move forward towards independent living with her children.
- The case manager continually assesses Jane for domestic violence.
- Monthly our program director and executive director reviews all client input into the Alternatives to Abortion website and processes monthly invoices.
- As Jane's pregnancy progresses the case manager uses the 2011 American Academy of Pediatrics Recommendations to assess Jane's ability to provide a safe sleep environment for her baby following the birth.
- Six weeks post-partum, the case manager conducted an assessment for post-partum depression using the Edinburgh Postnatal Depression Screening Scale and found that Jane did not show any signs of post-partum depression.
- Jane remained in Mother's Refuge Residential program for one year and was able to rent her own apartment with the money she saved while working and living at Mother's Refuge. Janes received clothing, nutritional food, supplies, domestic abuse protection, transportation, access to medical care, pre-natal and parenting life-skills training along with many other residential services provided while participating in Mother's Refuge Residential program.
- Jane completed the Client Satisfaction Survey following the instructions of the case manager in June and December while living at Mother's Refuge.
- Prior to moving out the case manager assisted Jane in enrolling in the Supplemental Nutrition Program (SNAP) and Low-Income Home Energy Assistance Program (LIHEAP) to help with groceries and utilities in her own apartment with her children.
- Upon Jane moving into her own apartment, the case manager assessed Jane's ability to provide a safe sleep environment for Jane's baby. Jane is discharged from the Alternatives to Abortion program and information is documented in the data system.

Mother's Refuge charged the Alternative to Abortion program for 545 bed nights for Jane while she was in our Residential program. The Residential Care Housing rate for bed nights is \$100.00 per day maximum to include case management, education, food, clothing, transportation, access to medical care and referrals as indicated in the Individualized Pregnancy Completion Plan. For the 545 bed nights at \$100.00 per day, Mother's Refuge invoiced the Alternative to Abortion program a total of \$54,500 for client services and an additional eight percent allowable for administrative costs for a total amount billed of \$58,860.00 for client Jane Doe.

On average, pregnant abortion minded women, enroll and remain in our program for approximately nine months for residential treatment. After that time we continue to provide case management services while they live independently with their infant. We propose that the guaranteed-not-to-exceed price for client services would be \$29,700.00 to ensure the delivery of their infant and healthy start to life. This figure includes bed nights, case management services after exit of our residential program and the allowable eight percent administrative costs. If additional costs are incurred for this client we will continue to provide needed services and use funds from other sources to ensure the mother and infants' health and well-being.

EXHIBIT K**BUSINESS ENTITY CERTIFICATION, ENROLLMENT DOCUMENTATION,
AND AFFIDAVIT OF WORK AUTHORIZATION****BUSINESS ENTITY CERTIFICATION:**

The vendor must certify their current business status by completing either Box A or Box B or Box C on this Exhibit.

<u>BOX A:</u>	To be completed by a non-business entity as defined below.
<u>BOX B:</u>	To be completed by a business entity who has not yet completed and submitted documentation pertaining to the federal work authorization program as described at http://www.uscis.gov/e-verify .
<u>BOX C:</u>	To be completed by a business entity who has current work authorization documentation on file with a Missouri state agency including Division of Purchasing.

Business entity, as defined in section 285.525, RSMo, pertaining to section 285.530, RSMo, is any person or group of persons performing or engaging in any activity, enterprise, profession, or occupation for gain, benefit, advantage, or livelihood. The term "business entity" shall include but not be limited to self-employed individuals, partnerships, corporations, contractors, and subcontractors. The term "business entity" shall include any business entity that possesses a business permit, license, or tax certificate issued by the state, any business entity that is exempt by law from obtaining such a business permit, and any business entity that is operating unlawfully without such a business permit. The term "business entity" shall not include a self-employed individual with no employees or entities utilizing the services of direct sellers as defined in subdivision (17) of subsection 12 of section 288.034, RSMo.

Note: Regarding governmental entities, business entity includes Missouri schools, Missouri universities (other than stated in Box C), out of state agencies, out of state schools, out of state universities, and political subdivisions. A business entity does not include Missouri state agencies and federal government entities.

BOX A – CURRENTLY NOT A BUSINESS ENTITY

I certify that _____ (Company/Individual Name) **DOES NOT CURRENTLY MEET** the definition of a business entity, as defined in section 285.525, RSMo pertaining to section 285.530, RSMo as stated above, because: (check the applicable business status that applies below)

- I am a self-employed individual with no employees; OR
- The company that I represent employs the services of direct sellers as defined in subdivision (17) of subsection 12 of section 288.034, RSMo.

I certify that I am not an alien unlawfully present in the United States and if _____ (Company/Individual Name) is awarded a contract for the services requested herein under _____ (RFP Number) and if the business status changes during the life of the contract to become a business entity as defined in section 285.525, RSMo pertaining to section 285.530, RSMo then, prior to the performance of any services as a business entity, _____ (Company/Individual Name) agrees to complete Box B, comply with the requirements stated in Box B and provide the Division of Purchasing with all documentation required in Box B of this exhibit.

Certification Regarding
Debarment, Suspension, Ineligibility and Voluntary Exclusion
Lower Tier Covered Transactions

This certification is required by the regulations implementing Executive Order 12549, Debarment and Suspension, 29 CFR Part 98 Section 98.510, Participants' responsibilities. The regulations were published as Part VII of the May 26, 1988, Federal Register (pages 19160-19211).

(BEFORE COMPLETING CERTIFICATION, READ INSTRUCTIONS FOR CERTIFICATION)

- (1) The prospective recipient of Federal assistance funds certifies, by submission of this proposal, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.
- (2) Where the prospective recipient of Federal assistance funds is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

Instructions for Certification

1. By signing and submitting this proposal, the prospective recipient of Federal assistance funds is providing the certification as set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective recipient of Federal assistance funds knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the Department of Labor (DOL) may pursue available remedies, including suspension and/or debarment.
3. The prospective recipient of Federal assistance funds shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective recipient of Federal assistance funds learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
5. The prospective recipient of Federal assistance funds agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the DOL.
6. The prospective recipient of Federal assistance funds further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may but is not required to check the List of Parties Excluded from Procurement or Nonprocurement Programs.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntary excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the DOL may pursue available remedies, including suspension and/or debarment.

Complete if applicable. This is typically used by large organizations with multiple facilities in several locations. The parent organization's number is number assigned to the headquarters for the operation.

Principal Place of Performance

Complete if the primary place of performance is different than the address listed above.

Executive Compensation Information

Review the following questions to determine whether you are required to report executive compensation information.

1. In your preceding completed fiscal year, did your business or organization receive:
 - a. 80 percent or more of its annual gross revenues from federal procurement contracts (and subcontracts), and federal financial assistance subject to the Transparency Act, as defined in 2 CFR 170.320; and
 - b. \$25,000,000 or more in annual gross revenues from federal procurement contracts (and subcontracts), and federal financial assistance subject to the Transparency Act?

Yes No

Note: If the answer to either Question 1a or 1b is "No", your organization's compensation information is not required. Do not complete the Executive Compensation Information section of the FFATA Data Form.

Note: If the answer to both 1a and 1b is "Yes", proceed to Question 2.

2. Does the public have access to the information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 [15 U.S.C. 78M(a), 78o(d)] or section 6104 of the Internal Revenue Code of 1986? (To determine if the public has access to the compensation information, see the U.S. Securities and Exchange Commission's total compensation filings at <http://www.sec.gov/answers/execomp.htm>)

Yes No

Note: If the answer to Question # 2 is "Yes", your organization's executive compensation information is not required.

Note: If the answer to Question #2 is "No", you are required to complete the Executive Compensation Information section of the FFATA Data Form.

Definitions

"Executive" means officers, managing partners, or any other employees in management positions.

"Total compensation" means the cash and non-cash dollar value earned by the executives during the preceding fiscal year and includes items such as salary, bonuses, stock awards, incentive plans, pension plans, deferred compensation, etc.

Additional information about reporting compensation is available at:
https://www.fsrs.gov/documents/OMB_Guidance_on_FFATA_Subaward_and_Executive_Compensation_Report_08272010.pdf
